

Sage 50 Accounting—U.S. Edition

Sage Mobile Sales Go where your customers are—go mobile!

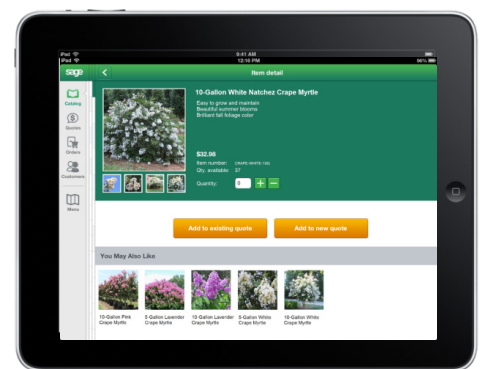

Have you ever stopped to consider how much you could increase sales by being more available to your customers? Take your Apple® iPad or Windows® tablet wherever you go and never miss an opportunity to make a sale—or to increase the amount of every order. The Sage Mobile Sales app connects to your Sage 50 software for real-time customer, pricing, and inventory information on the go.

It couldn't be easier. Your customers will enjoy the convenience of scrolling through all your products and selecting what they need from the attractive display. You can create quotes and orders on the spot, confident you're working with the most up-to-date pricing, inventory, and customer information pulled in real time from Sage 50.

With a few clicks you create the quote, convert it to an order, and take payment on the spot. Plus, if an item is not in stock, your tablet displays related items, ensuring you never miss a sale. Going mobile increases customer satisfaction and brings in more business for your company.

Successfully do business in a mobile world.

- **Increase sales**—book sales anywhere, anytime while in or away from the office.
- **Sell more products**—display related items and access past orders.
- **Get paid faster**—process orders and collect payments onsite with easy-to-add mobile swiper and Sage Payment Solutions.¹
- **Get up-to-date access** to customer, pricing, and inventory information.
- **Reduce costs**—create an attractive online catalog and get rid of printed versions.
- **Create a quote** while with your customer, email it, or convert it to an order.
- **Confidently process orders** with real-time visibility into inventory levels.
- **Streamline order processing**—quotes, orders and payments are automatically entered into Sage 50 saving you time and ensuring accuracy.

Create a scrollable online catalog with attractive photos, up-to-date pricing, and product recommendations for more and bigger sales.

Take a credit card payment with the handy mobile swiper and merchant account from Sage Payment Solutions. It's immediately recorded in Sage 50 to save you time and reduce errors.

Sage 50 Accounting—U.S. Edition
